At I m University has the **4th largest** Ankara. Our library aims to create team spirit, service and perfection within itself, enable the library Users to produce-keep-transfer the information and to create a learning society.

## ARGEDA-TTO

The main goal of ARGEDA-TTO is to ensure that the experience and knowledge gained through various studies are used in the most efficient way and technologies emerged as a result of the a wide range of studies conducted within the University gain commercial value and are used by institutions and organizations which need such technologies.

## The goals ARGEDA-TTO:

- To inform the academic staff, institutions and organizations about the existing and new national and international support programmes by organizing seminars and conferences.
- To ensure that the academic staff carry out their studies without losing time by guiding them in the application process of the support programmes
- To ensure that the experience and knowledge gained through various academic studies are not limited to scientific publications and gain commercial value by being used in industry sector and are transformed into product by directing these studies in accordance with the needs of the sector
- To ensure the union of forces and increase in the productivity by establishing communication between people, institutions and organizations from various disciplines
- To minimize the dependence on foreign sources by ensuring that the technologies and products needed by our industry are produced in our country
